Eyob Nigussie

Summary

Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

Skill Highlights

- Understanding of Google Cloud Platform
- Understanding of microservices architecture
- Knowledge of AWS services
- Strong SQL skills
- Containerization with docker
- Knowledge of GraphQL and REST APIs
- API design and development
- Version control with GIT
- Experienced with performance optimization
- Browser Extension development

Experience

Backend Engineer – January 2023 to Current

GeezByte Technologies, Addis Ababa, Ethiopia

- Developed Video conference application and Hotel management system for SKY hotel and resorts located in Bahir Dar
- Integrated third-party APIs into existing systems to extend product capabilities without reinventing the wheel.
- Increased developer productivity by automating repetitive tasks through scripting and CI/CD tools.
- Optimized server performance by implementing efficient algorithms and data structures.
- Deployed applications using containerization technologies such as Docker, ensuring consistent runtime environments across development, testing, and production stages.
- Managed cloud infrastructure resources on platforms like Hasura and Digital Ocean, ensuring optimal cost management and availability of services.

Full Stack Web Developer - October 2022 - October 2023

Eshi Digital - Addis Ababa, Ethiopia

- Front end implementation using React
- Backend development using Nodejs
- Developed customized content management systems tailored to specific client needs, enabling efficient content curation without sacrificing flexibility or ease-of-use for endusers.
- Applied responsive design principles to ensure consistent display and functionality across a wide range of devices, including mobile phones, tablets, and desktop computers.
- Incorporated SEO best practices like SSR throughout the development process, effectively boosting search engine rankings and increasing organic traffic to client websites.

Junior full-stack developer – May 2022 - September 2022

Minab IT solutions - Addis Ababa/Ethiopia

- Identified opportunities for process improvements through regular analysis of existing workflows and systems.
- Resolved technical issues promptly by troubleshooting complex software problems and providing effective solutions.
- Collaborated with cross-functional teams to develop high-quality software products within tight deadlines.
- Consistently met expectations for high-quality software development, contributing to a track record of successful project completion and client satisfaction.
